

Research opportunities for modern science and technology using high- power pulsed lasers

Online Extreme Light Infrastructure ERIC Training for Polish Students

State-of-the art lectures delivered
by leading experts in the field

6 March 2024, Wednesday, 09:15-11:00

Tyler Green & Robert Boge

An overview of laser
technology development

10 April 2024, Wednesday, 09:15-11:00

Jakob Andreasson

ELI Beamlines E1 technology
and applications

13 March 2024, Wednesday, 09:15-11:00

Zsolt Divéki

Ultra-short laser pulse
technologies

17 April 2024, Wednesday, 09:15-11:00

Miloslav Kloz

Bio applications

20 March 2024, Wednesday, 09:15-11:00

Jaroslav Nejdl

Laser-driven X-ray sources and
applications

24 April 2024, Wednesday, 09:15-11:00

Florian Condamine

Laser-plasma interaction

27 March 2024, Wednesday, 09:15-11:00

Anna Zymaková

X-ray spectroscopy status and
challenges

30 April 2024, Tuesday, 09:15-11:00

Tomas Tolenis

Optical coatings for laser
applications

3 April 2024, Wednesday, 09:15-11:00

Lajos Schrettner

Control systems of ELI-ALPS
